PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience building a web-based learning resource management project using HTML, CSS, JavaScript and Supabase. Currently strengthening Python programming and problem-solving fundamentals, with an interest in entry-level software development and Python/full-stack development opportunities.

TECHNICAL SKILLS

Programming: Python (fundamentals), JavaScript

Web Technologies: HTML5, CSS3, responsive web design

Database / Backend Services: Supabase (authentication and online data storage project work)

Tools: Git, GitHub

PROJECTS

StudyHub – Smart Learning Resource Manager

Technologies: HTML, CSS, JavaScript, Supabase

• Developed a web-based platform to help students organize and manage learning resources.

• Built the user interface using HTML, CSS and JavaScript.

• Integrated Supabase for user authentication and online resource storage.

• Published the project online: https://system50.github.io/StudyHub/

EDUCATION

B.Tech – Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh

Expected Graduation: 2027

Class 12th – Intermediate

St. Mary's Inter College, Noorpur, District Bijnor, Uttar Pradesh – 246734

Board: UP Board | Year of Passing: 2022 | Percentage: 59.2%

Class 10th – High School

St. Mary's Inter College, Noorpur, District Bijnor, Uttar Pradesh – 246734

Board: UP Board | Year of Passing: 2020 | Percentage: 75.16%

CAREER INTEREST

Seeking an entry-level opportunity or internship in software development, web development or Python-focused development to apply current skills and continue learning.
